**The Truth About LAX Revealed...**

Many strange occurrences have happened within this area, and now there are new facts which have been brought to light revealing an amazing discovery!

During the construction of LAX, ancient Indian artifacts were uncovered by the contractor. The city council and the mayor at that time, hid the discovery in order to continue the project and it's government funding. The artifacts indicate that this location was once an Indian ceremonial ground where they met with the Great Spirit from above. In 1963, two boys from the housing tract which used to be under the glide path of LAX, discovered more relics at the current location of Del MarPark. The city immediately clamped a lid on the discovery, bulldozed the area and established a park on the site. Within two years the entire tract of homes was condemned and completely cleared. The area is now surrounded by a chainlink fence and posted with "No Trespassing" signs.

Geological evidence indicates that there is a concentration of ores deep below the surface which causes a magnetic abnormality at this location. This magnetic field, coupled with the heavy air traffic over the site has produced a vertical flux point radiating outward from the earths core. There is mounting evidence that this may serve as a local magnetic beacon for UFO's.

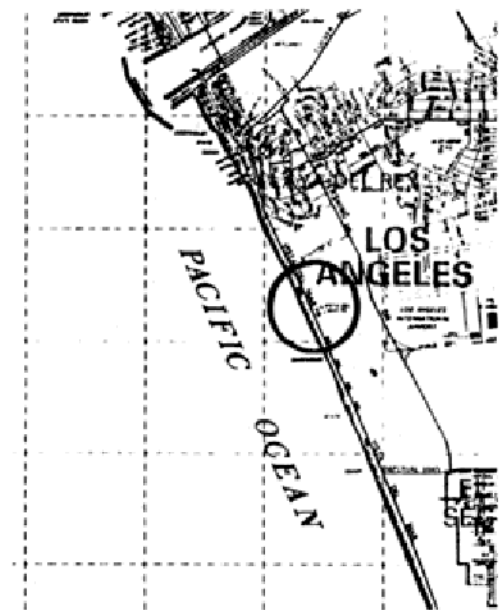

**The Cosmic Connection...**

The discovery of the Magnetic Christ Icon is the triggering device needed to accelerate the Local Area Beacon. The UFO EXPO has brought together many contactees from around the world. This critical mass of advanced beings and technical hardware, will bring about a jump in the evolutionary progress of mankind. We are now ready to make that leap into deep space!

Will you miss the opportunity to welcome this event which has so long been predicted and longed-for? We know when and where. Now you can be there. Share in the secret of the MAGNETIC CHRIST!

**HE IS COMING!!!**  
**Join us for a landing reception under the stars, Sunday evening, May 12th. Be there before 9:13 pm . Look for us on the west side of the hill where the LAX glide-path meets the ocean at Vista Del Mar Park, 1/4 mile south of Sandpiper St.**
